GitHub: <https://github.com/arielsosa>

Education:

University at Buffalo (UB), SUNY – Buffalo, NY
Bachelor of Science, Computer Science
Expected May 2027 | GPA: 3.2

Relevant Coursework:

Data Structures, Discrete Math, Computer Architecture
Mobile Applications, Machine Learning, Network Concepts
Systems Programming, Prob & Statistics, Web Programming

Technical Skills:

Languages: Python, C++, C,
Java, SQL, React, Pytorch, Go

Tools/Platforms: GitHub, GitLab,
Visual Studio, SQLite, Linux/Unix
Systems, Android Studio, Eclipse,
IntelliJ, Pycharm

Projects:

Con Quian (Card Game App) Group Collaboration

Currently developing an App for a rummy-style card game called “Con Quian.”
Recruited an audio engineer, a graphic designer, and an app developer to assist in development.
Created a Discord chat and a GitHub repository using Visual Studio and Java to develop an app

Experience:

CodePath –

Technical Interview Prep Pathway - Web Programming - Applied AI Engineering - Certifications

Dates of Experience: February - May 2026, June - August 2026

- **TIP:** Solved advanced algorithmic problems and strengthened technical communication through mentorship and senior-engineer workshops. Used AI tools for debugging and research to improve problem-solving efficiency and technical interview readiness.
- **Web Programming:** Built and deployed full-stack web applications using React, databases, terminal-based development workflows, and modern front-end technologies, gaining hands-on experience creating responsive and interactive user experiences.
- **Applied AI Engineering:** Developed AI-powered projects by integrating AI APIs into applications, gaining practical experience with how AI systems work and how they can be effectively applied to enhance user experiences and real-world workflows.

Handshake AI – AI Systems Trainer

Dates of Employment: 2025 - Current

- Working with Audio, Visuals, and text to help train AI systems to work with these formats more accurately.
- Collaborating with the team to discuss the status of the various AI systems and to assist the team in identifying any issues with the AI systems.

Nassau Community College – Student Developer – The Nest Food Pantry Mobile App

Dates of Experience: Fall 2024

- Collaborated with student developers to design, develop, and troubleshoot a campus food pantry mobile application using Java, Android Studio, HTML, SQLite, and GitLab version control.
- Led multilingual translation and accessibility testing while collaborating across teams to identify issues, implement solutions, and ensure an inclusive user experience across devices.

Activities:

ColorStack - General Body Member

- Engaged in a national community supporting underrepresented computer science students through career development, mentorship, and industry networking
